SKILLS

- UI/UX Designing
- Proficient Knowledge in DMQL & SQL
- Front End & Back End Coding
- Advanced Data Structres and Algorithmic Expertise
- MERN Stack Developer
- Java Programming
- Project Management Tools
- Strong Communication
- Knowledge in Postgre Sql,Mysql,Mongodb

EDUCATION

Bachelor of Technology(B.Tech)
Andhra University College Of Engineering
2021-2025
- Major: Computer Science
- CGPA: 7.64
- Activites: Lead of Designing And Editing team in CODEIAM Club
- Achievements: winner at SMART INDIA Hackathon in the inter college competation

Intermediate
Sri Viswa Junior College
- Major: MPC
- Grade: 91%

Schooling
SRI CHAITANYA TECHNO SCHOOL
Major: 1-10 Grade: 95%

LANGUAGES

- English
- Hindi
- Telugu

PROFILE

Highly motivated and eager software developer with a passion for coding and problem-solving. Recently graduated with a Bachelor degree in Computer Science and equipped with foundational knowledge in programming languages A quick learner with a strong desire to gain hands-on experience and contribute to innovative software projects. Possess excellent analytical and communication skills, combined with a collaborative mindset, to thrive in fast-paced and dynamic environments.

WORK EXPERIENCE

Full stack developer:

ROBOCOUPLER   June-August(2023)

- Proficient in HTML, CSS, and JavaScript and developed a webpage for navy
- Experienced in front-end frameworks like React.js
- Skilled in crafting user-friendly and responsive web interfaces.
- Collaborative approach, working closely with designers and backend developers.
- Dedicated to delivering exceptional user experiences across various devices and browsers.
- Detail-oriented with a focus on design aesthetics and usability.
- I have fully assisted in the development of front-end login portals for the INDIAN NAVY and other notable clients who made decisions on behalf of the Robotocoupler corporation.
- A certificate of recognition was also given to me for my work on the INDIAN NAVY website. I have extensive experience with front-end web technologies, such as HTML, CSS, and JavaScript.

Full stack developer , Wire Frame designer :

Drpallamsettiinnovations.pvt.ltdJanuary 2024-PRESENT

- Front-End Expertise:Proficient in React.js,Tailwind CSS for building interactive user interfaces. I excel at translating design mockups into pixel-perfect, web applications that deliver exceptional user experiences and done testing on vercel tool.
- Back-End Expertise: Proficent in Node.js,Express.js and database connectivity and has significant knowledge on databases like Mongodb,PostgreSql,Mysql.

- Wireframe Design Skills:Skilled in wireframe design using tools like Figma, I create detailed visual representations of web and mobile applications. By collaborating closely with stakeholders and incorporating user feedback, I ensure that wireframes accurately reflect project requirements and user needs.

- App Development Internship:Additionally, I have completed a rigorous app development internship, further enhancing my skills in mobile application development. During this internship, I gained hands-on experience in Android app development app deployment processes. This experience has equipped me with a deeper understanding of the mobile landscape and strengthened my ability to deliver comprehensive solutions across various platforms.

KOLLA SRINIVAS PRANAV

STUDENT

EXPERTISE

- Full-Stack Development:Proficient in HTML, CSS, JavaScript, React.js, and Python.
- Wireframe Design: Creating detailed wireframes using Adobe XD and Figma.
- Mobile App Development:Completed Android app development internship using flutter
- Problem-Solving:Strong analytical skills for resolving complex technical challenges.
- Programming Languages:Proficient in Python, C++, and C.
- DSA & DBMS:Proficient in data structures, algorithms, and database management systems.
